

## FIREFLY AUDIO MANTIS SERIES SPEAKERS

*The Mantis 300 & 200*

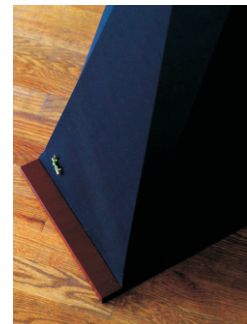

The Mantis 200 & 300 series “convertible” speakers, by Peter Ledermann, Chief Engineer of the SoundSmith Corporation, represent the distillation of 35 years of audio engineering.

Designed to provide smooth response into the deep bass region, excellent imaging and warm midrange from an aesthetically

unique enclosure, the Mantis speakers employ the most stable loudspeaker materials and production methods known.

They also feature tweeter protection, peak amplifier power indication, and can be easily converted from passive crossovers to powered speaker systems.

Firefly Audio speakers will easily fill a room with wall to wall sound, and are engineered to provide many years of revealing sound reproduction.

# TECHNICAL SPECIFICATIONS:

## Firefly Audio Mantis Series Speakers

|                          | MANTIS 200   | MANTIS 200   |
|--------------------------|--|--|
| <b>Height</b>            | 35.875"  | 42.25"   |
| <b>Width</b>             | 10.625"  | 11.75"   |
| <b>Depth</b>             | 21.5"  | 24.75"   |
| <b>Driver complement</b> | Dual 8" high power woofers with neoprene surrounds   | Dual 10" high power woofers with neoprene surrounds  |
|                          | 4" long throw ultra-wide bandwidth midrange          | 6" long throw ultra-wide bandwidth midrange          |
|                          | 1" diameter modified wide bandwidth dome tweeter     | 1" diameter modified wide bandwidth dome tweeter     |
| <b>Response</b>          | 48 Hz - 22 Khz;<br>SPL 90 dB<br>(1Meter 1/W on axis) | 48 Hz - 22 Khz;<br>SPL 90 dB<br>(1Meter 1/W on axis) |

Available in Cherry or Maple true wood veneers in 10 fabric color choices.

**Both models can be easily converted to powered, tri-amped versions simply by unplugging the rear external crossover and plugging in our tri-amp amplifier/EQ module.**
