

PHONO PREAMPLIFIER

Our MMP and MCP preamps each come in a high quality aluminum case with an external 24 volt DC power supply, and easy to set up instructions.

Play those high quality vinyl records again! Most new receivers lack a phono input stage to provide the gain and equalization required for a moving magnet or moving coil cartridge.

Upgrade to better sound! Poorly designed phono preamps and most receiver's built-in phono sections will not provide the quality sound that good vinyl records are capable of.

TECHNICAL SPECIFICATIONS:

Soundsmith Phono Preamplifier

	MMP 4	MMP 3	MCP 2
Phono Preamp type	Moving Magnet	Moving Magnet	Moving Coil
Input load R/C	47 k, 100 pF*	47 k, 100 pF*	100 ohm, 330 pF*
