

FIREFLY AUDIO BOOKSHELF SPEAKERS

The Dragonfly & The Monarch

The Dragonfly

The Dragonfly and Monarch Speakers, by Peter Ledermann, Chief Engineer of the SoundSmith Corporation, represent the distillation of 35 years of audio engineering.

The Monarch

Designed to provide smooth response into the deep bass region, excellent imaging and warm midrange from an easily positioned enclosure, the Dragonfly and the Monarch Bookshelf speakers employ the most stable loudspeaker materials and production methods known. They also feature tweeter protection and peak amplifier power indication.

“The Sonics were warm (not bloated), balanced and detailed, with great dynamic punch and acceptable extension. Although I was well off - axis, soundstaging... was excellent with a strong central image...”

Neil Gader - The Absolute Sound

“... seemed to impress everyone was the SoundSmith room... and an array of very affordable small speakers which provided perhaps the best sound (from small and sanely priced speakers) at the show.”

*Dennis Davis,
contributing Reviewer for Hi-Fi+ Magazine*

TECHNICAL SPECIFICATIONS:

Soundsmith Bookshelf Speakers

	DRAGONFLY	MONARCH
Height	12 “	14 “
Width	7.5 “	8.5 “
Depth	10.5 “	12.5 “
Driver complement	4.5 “ long throw woofer wide bandwidth	6 “ long throw woofer wide bandwidth
	1” diameter wide bandwidth dome tweeter	1” diameter modified wide bandwidth dome tweeter
Response	56 Hz - 22 KHz; SPL 87 dB (1 Meter 1/W on axis)	56 Hz - 22 KHz; SPL 88 dB (1 Meter 1/W on axis)

Both the Monarchs and Dragonflies can be custom fitted with Ribbon Tweeters Available in Piano Black, Cherry & Beech and true wood veneers
